ASSESSMENT OF RESULTS

To what extent have the outcomes for this result area been achieved?

During the reporting period about 11.2 million people have improved food intake due to their income increase and awareness building on nutrition. Food security project conducted door to door food awareness campaign in all 1000 select villages to aware people about how to make healthy diversified food and also to identify nutritionally vulnerable people. Food fortification project covered more beneficiaries than planning as Government took over the responsibility and extended the rice fortification activity to other areas. In general all project reached their target very well.

A. Results achieved better than planned

Food and Nutrition Security

Ricie fortification project covered more beneficiaries than planning as Government took over the responsibility and extended the rice fortification activity to other areas. In general all project reached their target very well.

A. Results achieved better than planned

To what extent have the outcomes for this result area been achieved?

Achieved target as per planning.

To what extent have the outcomes for this result area been achieved?

Achieved target as per planning.

Achieved target as per planning.

To what extent have the outcomes for this result area been achieved?

Achieved target as per planning.
### ASSESSMENT OF RESULTS

**A. Results achieved better than planned**

- **Result area 5**: To what extent have the outcomes for this result area been achieved?
  - **Baseline + year**: 45
  - **Target**: 60
  - **Result**: 45
  - **Reason for result achieved**: As all projects have a clear gender focus and deliberate efforts are made to improve the position of women in the project areas, FNS projects have reached a significant number of women and have contributed to empowering women entrepreneurs. In addressing malnutrition women and children are targeted first as they are affected most. Women are encouraged to participate in economic activities and take control over resources.

- **Result area 6**: To what extent have the outcomes for this result area been achieved?
  - **Baseline + year**: 45
  - **Target**: 60
  - **Result**: 45
  - **Reason for result achieved**: Gender mainstreaming is a main focus in all FNS projects. In most cases female members of households are direct participants in FNS projects. The MMWW (Making Market Work for Women) project is only working with female members of households. In the case of smallholder farming women have more control over farmland.

- **Result area 7**: To what extent have the outcomes for this result area been achieved?
  - **Baseline + year**: 45
  - **Target**: 60
  - **Result**: 45
  - **Reason for result achieved**: All projects focus on better access to markets and fetching higher prices. Some projects deal with specific value chains (e.g. SaFal, Blue Gold, CDSP and others) and are working with selected market actors. Through providing information to the communities (e.g., Local Farmers, LSP and GO by SaFal, FAs & NSA by PROOFS etc.) projects ensure employment opportunities for young men and women in their respective communities. These opportunities usually result in better earnings and are also channels of private companies (e.g., milk collectors get commission from the dairy companies). The role of private sector is crucial to ensure quality inputs to improve productivity as well as to provide markets for the produce.

- **Result area 8**: To what extent have the outcomes for this result area been achieved?
  - **Baseline + year**: 45
  - **Target**: 60
  - **Result**: 45
  - **Reason for result achieved**: Activities were planned and implemented and have been no major interruptions in the implementation.

### AIMS AND OBJECTIVES

**Result area 6**: IMPACT/OUTCOME/OUTPUT

- **Outcome**: 6 Create enabling conditions for FNS: Land use for FNS

**Result area 7**: IMPACT/OUTCOME/OUTPUT

- **Outcome**: 8 Create enabling conditions for FNS: Gender in FNS

**Result area 8**: IMPACT/OUTCOME/OUTPUT

- **Outcome**: 10 Create enabling conditions for FNS: Private sector in FNS
